PROFILE

A passionate and detail-oriented individual skilled in coding, web development, and graphic design. I enjoy solving problems creatively and building modern, user-friendly digital experiences. Alongside my technical skills, I'm a team player with strong communication and learning abilities. My hobbies like cricket and technology keep me active, focused, and innovative.

MY PROJECTS

Calcumate   2030 - PRESENT

- I have developed a clean and responsive calculator app designed for quick and accurate calculations.
- It offers a modern interface with seamless functionality, making every calculation fast and effortless.
- It ensures smooth performance and a user-friendly experience for all types of basic and advanced calculations.

Ludo Game   2025 - 2029

Modern ludo gane

- A modern Ludo app designed for seamless gameplay, clean visuals, and multiplayer interaction.
- It brings friends and family together with smooth controls, engaging design, and an enjoyable gaming experience.
- It offers a perfect blend of fun and strategy, ensuring every match is exciting and competitive.

Different Login Page   2024 - 2025

Modern Login Pages

- A collection of modern and animated login page designs built with clean UI, responsive layout, and smooth transitions.
- Each design is crafted to enhance user experience, making authentication both stylish and effortless.
